

Peak hour bus services to and from Karori as from 4 Feb 2019

(Also Northland/Mairangi peak hour bus services as from 4 Feb 2019)

Immediately below are the comparisons of the latest Route 2 *PEAK HOUR* timetables compared to the old 30 April 2017 Route 3 timetables. As can be seen, Karori residents are now suffering from 3 less Route 2 buses in the morning rush hours (now 16 versus 19 previously), and 4 less buses in the evening rush hours (now 16 versus 20 previously).

Unfortunately it is much worse than that ! The Karori South (former Route 3S) used to schedule 4 buses right through "the Golden Mile" (Lambton Quay to Courtenay Place) - now the new Route 33 terminates at Brandon Street (when they actually have enough drivers!).

Karori West (former Route 3W) used to schedule 3 buses through "the Golden Mile" - now the new route 34 also terminates at Brandon Street. Some of these passengers are now forced to crowd on to Route 2 buses south of Brandon Street. In addition, some Northland residents on truncated Route 22 no longer operating between Courtenay Place and Pastoral House, now chose to use Karori Route 2 buses rather than trudge to the Railway station being the new departure point for Route 22.

All the above means that more residents wanting to access or leave "The Golden Mile" between Brandon Street and Courtenay Place are crowding onto 10 less buses in the morning rush hour and 11 less buses in the evening rush hour !!!!

Of course the Greater Wellington Regional Council (GWRC) argues that Karori Wrights Hill buses, Route 37, Karori Park- Miramar Route 18e, Karori Mall - Courtenay Place Route 21 go to and from Courtenay Place. However these buses **DO NOT GO THROUGH** "The Golden Mile" north of Taranaki Street. Instead they take back street routes through Kelburn, being back end of the Terrace - Ghuznee Street - Taranaki Street etc. Not of any convenience for a large proportion of Karori residents who work in "The Golden Mile" - and even less convenient during **raging north-westers and southerlies**.

This sort of injustice has been continuing on since 15 July 2018. It is now obvious that Karori and some other suburbs were cynically chosen by the GWRC to suffer having their bus services through Lambton Quay to Courtenay Place reduced in order to cut down "the bus congestion in the Golden Mile" and/or subsidise other less popular routes.

Note : The congestion is partially caused by GWRC's unwise selection of double decker buses which have loading/unloading delays, and also cannot access the Karori tunnel, nor use the Seatoun tunnel at the other end of Route 2.

Following the Route 2 peak timetable below are the others for routes 18e, 21, 33, 34, and 37. Northland/Mairangi routes 22 and 13 on last page.
